

NATIONAL PARKS QUARTERS AVAILABLE AT CCB!

LITTLE VALLEY, NY – CCB (Cattaraugus County Bank) is pleased to announce their participation in the America the Beautiful Parks Quarter Program. The program is a ten-year celebration of 56 national parks, one quarter design for a national park or site in every state. CCB currently has the coin first released (Hot Springs, Arkansas) available to the public. Additional 2010 releases will include Yellowstone National Park in Wyoming, Yosemite National Park in California, Grand Canyon National Park in Arizona and Mount Hood National Forest in Oregon.

Designed to reinvigorate interest in our national parks, forests, fish and wildlife refuges, and other national sites, as well as to educate the public about their importance to us and our history, these new quarters honor some of our most revered, treasured and beautiful national sites – majestic and historic places located throughout the United States and its territories that truly make us ‘America the Beautiful’. New designs on the reverse (tails side) of the United States Mint America the Beautiful Quarters will issue five times each year, with the final (56th) coin in the series being released in 2021. The Yellowstone quarter design is an iconic scene featuring a bison and Old Faithful. The coins’ obverse (heads side) will feature a restored version of the familiar 1932 portrait of George Washington, including subtle details and the beauty of the original model.

In addition to having individual quarters in this series available, CCB also has the following for sale:

- **Uncirculated 2-Coin Collections:** The national park collections are the single product offered outside of specialty coin stores that will include an uncirculated coin from each of the two mints, a ‘D’ series from the Denver Mint, and a ‘P’ series from the Philadelphia Mint. Presented in a full-color, tri-fold display measuring 5” x 15”, the quarters are held in place by a custom plastic enclosure which protects their brilliant finish. Included on the tri-fold are facts about the quarters, including the history of the National Park, its culture, and information on the design of the quarters themselves.
- **Collector Boxes:** These boxes are a dramatic and elegant way to store and protect the uncirculated 2-Coin collections.
- **Collect-Your-Own Coin Maps:** There are two different map designs available, one for a child’s collection and one for adults. Both are extra large in size (16.5” x 26”), with deep, recessed slots for a fun and engaging way to collect all 56 quarters.

“The Federal Reserve is reporting that the National Park Quarters will be scarce in 2010. Our own coin and currency vendor told us prior to the release that they would not be able to deliver supplies of these quarters to us,” states CCB VP and Retail Manager Joni Simcick. “Knowing that, coupled with the interest several customers already expressed in these quarters, I searched for an additional source and locked in our order(s). We could leave our coin-loving customers disappointed and frustrated OR we could make them pleased and help them with their coin collections. Obviously, CCB chose to be of assistance and help our customers! I encourage everyone to stop in and see the items. We can even order “rolls” of quarters for interested coin enthusiasts.”

CCB is an FDIC insured New York State chartered independent, community bank. From January 2, 1902, CCB has established an unprecedented record of fiscal integrity and sound financial growth, which now totals over 160 million in assets. CCB maintains convenient ATMs and can be found on the web at www.ccbly.com. CCB is an equal housing lender. CCB’s main office is located in Little Valley, with eight branch offices.
